Special Little-Tree Farms Lawn Seed Mixtures for BEAUTIFUL LAWNS

These "special" Little-Tree Farms mixtures are the products of years of ripe experience and experimentation in the production of fine lawns for every purpose. Through scientific study of the various grasses we have achieved as nearly perfect mixtures for New England conditions as human skill, knowledge and experience can make possible.

Though a beautiful lawn is of inestimable value, the cost of the seed is so trivial in comparison with the cost of construction that cheap mixtures are poor economy. We recommend unreservedly these mixtures, sure that you will obtain maximum satisfaction. Five pounds will plant 1000 square feet.
